

I have now met in person with Ed Zimbardi 4 separate times once in Atlanta just before we got involved with the program, twice in St Augustine, and once at my home for dinner. It was a pleasure hosting Ed and his companion at my home and I wanted to update you all on exactly how I'm feeling about Crypto Program and Ed Zimbardi in particular.

I take my responsibility to guide you through this crocodile infested swamp we call passive income programs very seriously. I do my best to leave no stone unturned to get at the truth. It is a time consuming and expensive process, but also necessary and in the end whatever the outcome of my investigations, there is still no guarantee of success.

Considering some of the ups and downs we have had in the different programs we have been involved with, I am always hesitant to go out on a limb and fully endorse an individual or a program because, as we know, anything can happen.

As I have been thinking about writing this I have taken into consideration all the possibilities and balanced them against all the evidence we have gathered about Crypto Program and Ed himself.

My instincts, my gut, empirical evidence, the efficacy of the program to date, the way they make money, the tireless energy Ed puts into keeping us all informed with his daily and sometimes multiple daily live broadcasts on Facebook as well as my personal interactions with Ed have brought me to the conclusion that Crypto Program has all the ingredients of a well run, credible program that can last for years to come.

In addition to that, the way the program is designed, your risk is reduced by 25% each month, so if you have 100% risk on day one when you make your deposit, in one month your risk has been reduced to 75% in month two it is reduced to 50% month 3 to 25% and on month 4

been reduced to 10%, in month two it is reduced to 50%, month 3 to 25% and on month 4 your risk is zero.

My personal risk at this moment is zero. I have earned back every penny I put in and am now using earned money to earn my 25% monthly ROI in USDT.

The importance of having a long lasting, well run passive income program like CryptoProgram:

I believe the world we live in is about to change dramatically. This is not fear mongering, it is pragmatic analysis of our financial system which has begun to collapse. It is not “about” to collapse, it is collapsing around us right now with several bank failures already behind us. This week 12 of the largest banks experienced double digit losses to their stock price, some over 60%.

It's time to shift gears and I mean fast if you are going to be in a position to live well in the future. There is not much time left, but there is enough time if you take action to protect yourself now. I sincerely believe that Crypto Program offers us a means like no other to position ourselves for financial stability very quickly.

If you have money in the bank, you are at serious risk. In the event of a bank failure you may be insured by FDIC, but what they don't tell you is that you may have to wait several years to collect your insured deposit, that's just a fact, it doesn't happen quickly.

If you have money in a 401K, CD's, Money Markets, or any other paper assets, you are in trouble and you need to move fast to put your money into hard assets like Gold, Silver, Strategic Real Estate, IMO Crypto Program. For income I can't think of a better place to park money than in Crypto Program. Everyone I know who has a brain is moving funds into CP right now.

In the interest of full disclosure, when you get involved in Crypto Program, I earn a commission. If you have been following me for any length of time you know that is not my primary motivation, it is secondary to keeping you informed about how I make money and how you can too. That has always been my primary motivation and it remains my primary motivation.

I urge you to make a move. As we always say “past success is no guarantee of future success”. It is also true that “past failure is no indication of future failure”. The Past Does Not Equal The Future. You and you alone dictate your future.

I say the following unreservedly:

I have come to consider Ed Zimbardly a friend. I have seen him under pressure behave in the most honorable way. I have seen him discourage people from joining Crypto Program when he could have put the hard sell on them instead. I have seen him over and over again encourage people to make a decision based not on anyones hyperbole but rather on their instincts, due diligence, and risk tolerance. I have heard Ed speak with confidence about Crypto Program but never one time have I heard him say anything that was coercive or even remotely speak in a way that hyped the program.

Ed is mild mannered, thoughtful professional; he is kind, generous, loving, and loyal, and I'm adding my name to his short list of individuals that he can count on in a professional and personal manner, whatever the need may be. If Ed happens to see this message, it will not be because I rubbed it in his face, it will be because he happened upon it.

If ever there was a program that I felt so good about I wanted to shout it from the mountain tops, it is Crypto Program.

A bit of history: I worked as a consultant for Eben Pagan in 2008. While working with him I had the privilege of meeting and working with other Internet Marketing giants like Tony Robbins, Ryan Deise, Frank Kern, Joe Polish, Dean Jackson, Marie Forleo, and many others. During that time I became aware of and participated in the business of optimizing Google Adwords in the same manner Crypto Program does it. I KNOW THIS TO BE A LEGITIMATE BUSINESS MODEL THAT WORKS AND THAT GENERATES INCREDIBLY HIGH RETURNS. This is why I understand how CP can pay out 25% monthly ROI in USDT.

I've done the work, I've spent time with the players, I've turned over the rocks and I've come to the final conclusion that THIS IS THE ONE. It is not the most exciting one and not even the highest yielding one, but it is the one I believe that will be here 5 years from now paying us.

If you are not already in Crypto Program, I encourage you to click my link here and get started:

→ [CLICK HERE AND GET STARTED WITHOUT DELAY](#) ←

If you are already enrolled in Crypto Program, I encourage you to scale in with more units. I also encourage you to take out your seed capital when you've earned it back (that's just good investing IQ) and after you have secured your seed capital, let it ride to the end of time.

Thanks as always for your attention as we navigate these treacherous waters together.

We are bold, we are adventurous, we are smart, and we move with precision and conviction toward our objectives.

We are Fireteam1 and we will win.
