Chad, good morning.

I found a new program that has been in operation for 20 years but they just turned it into a program. I'm going to promote this next year but wanted to tell you about it up front.

I'm going to Atlanta next week with Jamzee to meet the principal who created the program and it happens to be a guy I am familiar with and who Jamzee also knows from some years back.

The program is set up just like CGI and it pays 25% monthly, but the best part is they are starting just like cgi in that the minimum buy in is just \$550 at this point. Like CGI you buy blocks and \$500 goes to buying adwords and the \$50 goes to paying affiliate commissions. This could be really great for you and Del because it's so easy to understand and easy to get in.

This is ultra low risk and not trading nor crypto related although we use crypto to buy our blocks.

This guy buys Google adwords and resells them for a profit, it's sort of like an arbitrage where we make the difference and it's 100% legit and run out of the US by American's if you can believe it.

Check it out, buy at least 1 unit for \$550 so you are in and we can discuss more. There is a facebook page etc.

If you'd like to join us for dinner in Atlanta on Dec. 13th you are most welcome. Jamzee and I arrive around 11:30AM CST if you can make it and if not I will share all info with you first before disseminating it to my wider group.

Sorry haven't had a moment to call you back yet. With Quick Turn, trying to rescue my crew from 8 Minute Trader and packing to move on Dec. 29th, I have my hands full.

Love to Penni and the doggies.
Scott
